## WHAT IS HOUSING FIRST?

We support people in need to access housing quickly.

Our approach is simple: Provide the housing first, and then provide on-going wrap-around supports that enable people to achieve their goals and sustain their tenancy.

## MAKING A REAL DIFFERENCE

Help us by providing a home for someone in need. Our team will then provide the supports and services for as long as they are needed.

Evidence from the US, UK, and Canada shows that this approach to tackling homelessness is extremely successful.
